Reply to Office Action dated 8/7/2006

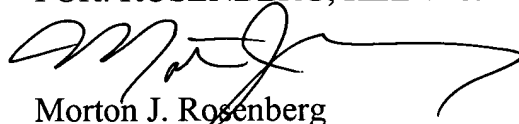

Remarks/Arguments

This case has been reviewed and analyzed in view of the Official Action dated 7 August 2006. In the Official Action, the Examiner has found two inventions, namely, Group I directed to Claims 1-10 drawn to a heat resistant food packing material; and Group II directed to Claims 11-15 drawn to a process of making a heat resistant food packing material. The Examiner has required that Applicant choose one Group for further prosecution in this case.

By this Amendment and Response, Applicant has canceled Claims 11-15 and elects Group I directed to Claims 1-10 for further prosecution.

It is now believed that the subject patent application has been placed in condition for examination and such action is respectfully requested.

Respectfully submitted,
